IOS DEVELOPER

I am an iOS Developer with hands-on experience in **Swift & SwiftUI**, eager to contribute to innovative projects. Published 3+ iOS apps on App Store integrating **Foundation Model, MapKit, WidgetKit, CoreData** and **RESTful APIs**.

EXPERIENCE

iOS Developer

Bluebex Softwares

May 2025 – Present
Hybrid – Bengaluru, Karnataka

- Spearheaded the development of 2 production-grade applications using **SwiftUI, MVVM**, and **Clean Architecture**, ensuring 100% code modularity and testability.
- Architected a multi-vertical e-commerce platform featuring Courier and Industrial modules, engineered a custom **Image Caching** layer that reduced memory footprint by **44%**.
- Implemented Reactive State Management using **Combine** to synchronize Cart data across the app, achieving **sub-second** data consistency for real-time user interactions.
- Developed a comprehensive Property Management SaaS with **Role-Based Access Control (RBAC)**, securely managing permissions for 3 distinct user hierarchies (Admins, Managers, Residents).
- Integrated **VisionKit** and **OCR** technology to build an in-app Document Scanner, eliminating manual data entry and accelerating the user KYC/Onboarding process by **80%**.
- Engineered a secure backend layer using **Firebase Auth** and **Firestore**, handling user sessions and real-time sync with **99.9% uptime** reliability.

PROJECTS

Mapora: Visual Diary Journal

SwiftUI, MapKit, CoreLocation, WidgetKit

[App Store Link](#)

- Built a geo-diary app using **MapKit** with custom clustering annotations to organize photo memories on an interactive 3D map.

Steal ASO

SwiftUI, Combine, Charts, REST APIs, iTunes Search API

[Source Code](#)

- Developed an App Store Optimization intelligence tool that aggregates real-time data using the **iTunes Search API** and analyzes competitor keyword performance.
